Children's Album Release: "Sleep, Baby, Sleep"

LA-LA KIDS ANNOUNCES DEBUT ALBUM

La-La Kids Music is getting ready to release their first album! *Sleep, Baby, Sleep* was designed to help your little-one sleep! From start to finish this album helps prepare your rambunctious little ball of energy for quiet time. Lush strings, soft bells and soothing harps sing out favorite melodies with inspired serenity.

More Information

The entire album was created and mapped around a child's natural heart rhythm using melodies your child knows and loves. Extended duration songs minimize abrupt changes and continue repetition to help promote focus and relaxation. As parents we know that sleeping can sometimes be challenging, to say the least! *Sleep, Baby, Sleep* is another tool to help.
